SPRINGFIELD, HLL., JAN. 15 .-Though the senate met twice today no business was transacted. The senate this afternoon adjourned until Friday afternoon to permit senators to work on the question of organization particularly the committee assignment. Both Republicans and Democrats immediately went into caucus.

When the senate reconvened at four o'clock it was found an agreement had not been reached, and an immediate adjournment was taken until 10 o'clock tomorrow morning. The committees on committees of

William L. O'Connell of Chicago, Governor-elect Dunne's campaign manager, is upon the scene here tonight in a personal effort to break the speakership deadlock and effect a settlement of the Democratic controversy in the Illinois legislature. The special emmissary of the dent Roosevelt's request resulted in new executive will discuss the situa- a decision by the department of justion in all its phases with the dif- tice that it had not been proven that ferent house leaders on the Democratic side. eventually. Will Advise Dunne of Situation.

Mr. Hubbard's action together with a reported arrival in Springfield of Mr. O'Connell as the personal emmissary of the governor-elect, halted the plan to send the agreement to Judge Dunne asking him to come here in person and make an effort to settle the speakership. It is probable that Mr. O'Connell will advise the new governor tonight of the situation as he finds it here and ask him to come to the capital some time tomorrow.

The deadlock took a new angle on the Democratic side today. Several representatives who attended the conference were outspoken in their belief that the field should be cleared of all the candidates and that Governor-elect Dunne should be asked to name some man for speaker upon whom a majority of the Democrats can unite. In response to this demand the candidates replied that it is the members of the night said he thought Kirby could house and not the candidates who not live more than a few months reare responsible for the situation.

Indication for Choice Friday. Unless the deadlock is broken tomorrow or there is some indication that a speaker can be elected on Friday, it is probable the house will quit work tomorrow afternoon until elected senator for the six year term next Tuesday morning. This will beginning next March, succeeding throw the speakership and the elec-

ators together as under the constitution next Tuesday is fixed as the day on which the two houses shall vote separately for senator. The constitution fixes the time for balloting on senator in the saparate houses and joint ballot, but this applies only to the regular election.

If the short term election is to be taken up at the same time some provision for it probably will be made in a joint resolution until the new speaker who is the presiding officer at all joint sessions rules that it is the duty of any joint session to proceed with the filling of a senatorial candidacy without the passage of a joint resolution by the separate

Next Week to be Busy One. Under the constitutional provision there can be no balloting for senator until the two houses are organized for business. This will make next week exceedingly busy in legislative circles if the speakership deadlock should be broken about next Tuesday. As Governor-elect Dunne's representative Mr. O'Conneen tonight and presented a plan under which the newly elected state officials might assume their new duties without waiting for the legislature to canvass the vote and declare the result.

Knowing Governor Deneen's anxiety to turn the executive office over to his successor Mr. O'Connell proposed that the incoming and outgoing officials enter into an agreement between themselves and without waiting for the legislature to complete its part of the work to make the transfer.

Governor Deneen Secided that before giving an answer to the ('oposal he would obtain an opinion from Attorney General Stead. The house today gave unanimous consent' to permit Former Speaker Edward D. Shurtleff to preside over its deliberations tomorrow.

Since the action was taken a question has arisen whether in effect the body has not made Mr. Shurtleff its temporary speaker.

CHICAGO JUNK DEALER SHOT AND INSTANTLY KILLED

Police Believe Murder Was Committed by Thief With Whom Deceased Had Dealings,

Chicago, Jan. 16 .- Max Mansfield, a junk dealer from whose shop stolen goods have been recovered many times recently, was shot and instantly killed today in a manner which led the police to believe that his slayer is a thief with whom the junkdealer had dealings.

Within the last few weeks five or six different men have called at the criminal court building and examined records in cases where Mansfield was accused of receiving stolen goods. This, coupled with the fact that valuables Mansfield carried in his pockets were not disturbed, gave rise to the police theory.

Mansfield met death in a revolver duel. His slayer, who escaped without being identified, entered the shop about noon and a few minutes fater he and the junk man, . both carrying revolvers in their hands, emerged from the shop. Mansfield reeled and fell. He had been shot through the heart.

Members of a fire company whose station adjoined the junk shop pursued the slayer who still held his revolver in his hand, for half a mile through the streets. He finally darted into an alley and disappeared.

Delegates Consider It Impossible For Their Country To Renounce Adrianople

GREEKS CONTINUE FIGHTING

LONDON, JIAN, 15.-The Balkan kingdoms have not weakened in their determination to re-open the war unless Turkey accepts their terms quickly. In defense to the powers, they may withhold the execution of their resolve a few days longer than seemed likely yesterday. They assert that their diplomatic course is a straightforward and frank one, and, while willing to concede a brief period of delay for Turkey's answer, it is not with a view of resuming negotiations on

any modified basis. The Balkan states have not changed their terms presented on December 23 one iota, while the Turks have receded all along the line except on the questions of Adrianople

and the Aegean Islands. The allies have adopted an attitude of stern firmness in order to convince Turkey that no alternative is possible for the conclusion peace but the acceptance of their original conditions but in so doing they have not wished to offend the suspectibility of the powers to alienate their sympathies.

Woman's World

Miss Rogers Only Woman Cartoonist.

A signature rather new in the cartoop world is that of "Lou Rogers." When this name first began to appear in the corner of breezy, up to the minute carroons seen in newspapers and magazines the public, and particularly that part of it composed of brothers of the caricaturist cult, began to wonder who this man Rogers was.

Great was their amazement when the truth leaked out that a woman was the power behind the pen-a tiny fittle woman at that, at least in physical proportions, but with a brain stuffed full of original ideas that any arrived cartoonist might envy.

And the wonder was heightened when it became known that this young woman up to a few years before her work appeared had speut most of her life in a Maine lumber camp, where ber father was employed. The force and meaning of a cartoon had never been explained to Miss Rogers. To the himberman they were merely funny pictures caricaturing a subject or situation, but the "girl of the Limberlost" sensed them and determined to make her impressions of current events known to the world through the car-

toon medium. How to get enough technical art knowledge to reproduce these ideas on

That this training has been gained accomplished by this plucky girl.

Miss Rogers is an ardent suffragist, and many of her best cartoons are to be found in magazines published by

MARRIAGE AS IT IS TODAY.

Women Too Busy With Interests Outside the Home.

Since all time the happiness that attends a marriage has been uncertain. Men and women expect so much and often give so little. Disappointment is all too common, for the average young individual expects perfection and finds poor human mittere.

"No man is a hero to his valet," runs the bitter old French proverb. It is perhaps as bard to be a hero in the eyes of the woman a man has married five years after marriage. Familiarity breeds contempt. It is hard to laugh not once, but many times, at the same jest, at the same old story as our mothers did. In the present day that is not even attempted.

Most women and a great many men only try to please before, not after, marriage, and se marriage is not a happy as it used to be

Marriage formerly among women was looked upon as a profession. Now it is only an incident, and an incident that need not continue unless it means sugar and spice and all that's nice to the woman, for her home is often the last place where a wife is to be found. The modern woman is often so busy that she cannot live at home. She must sell roses for hospitals, organize relief for strikers, slum among the des titute and leave her husband and chil dreu to look out for themselves.

This is not quite for the happiness of the world, because the right center of a woman's life is her home, and when that is vacant the cupboard of the afwho works for the woman. It is he that tolls for the bower and for the comforts of his wife. It is therefore not only foolish, but not fair, if, when he returns home, the bower is always M. Hailey. empty.

In Full Charge of Lighthouse. The only woman in the United States in full charge of a seacoast lighthouse

is Mrs. E. A Fish of Point Pinos, near Pacific Grove, Cal., who has received a letter of commendation for her twenty years' faithful service from the chief meyer, W. F. Kosemeyer, J. F. years' faithful service from the chief Brockhouse, H. D. Nortrup, C. H. of the lighthouse service, together with a medal bearing the inscription "U. S. L. S." and "Efficiency." She has been in charge & the Point Pinos light since held February the death in 1892 of her busband, who was head of the department of history and physiology in the University of California.

PITTSFIELD HIGH SCHOOL WILL PLAY HERE FRIDAY

Jacksonville High School Five Will Line Up Against Pike County Quintet-Illinois College Goes to Lincoln, and Second Team to Greenfield.

The Jacksonville high school is practicing hard in anticipation of the game Friday evening against Pittsfield. There is no better team tion of the country than Pittsfield and when they line up tomorrow against Buland's men there will be one of the fastest games yet witnessed this season. By the way the local boys have been convorting about the floor they should be able to give a good account of themselves. This will be their second game of the season, the initial one being against Petersburg, when the score was 13 to 7 in favor of Jacksonville.

Illinois vs. Lincoln. Coach Harmon will take his Illinois college team to Lincoln Saturday when he will meet the strong quintet of Lincoln college. Basketball quotations are high at Lincoln, but Coach Harmon expects his men to turn the trick. Lincoln will have a strong bunch, but Illinois wil! make up this deficiency by speed.

The Springfield papers are tesponsible for a story that Illinois college will play Lincoln on Friday evening and on the way home will play the "Y" team of Springfield, known as the Speed Boys.

Second Team to Greenfield.

Arrangements have been made whereby the second team of Illinois college will play the Greenfield high school team at Greenfield Saturday evening. Manager Stottler will be in charge and the boys are going down expecting a victory, although they realize how strenuous a job it is for a team to win against the Greenfield bunch on their own floor. Dual Track Meet.

Wesleyan college has arranged for a dual track meet with Bradley Polytechnic Institute of Peoria, to take place in the Bradley gymnasium

Routt vs. Manchester. Routt college has a basketoall game scheduled with Manchester high school to take place Friday.

LIFE'S STRUGGLE WITH ILLNESS

Mrs. Stewart Tells How She Suffered from 16to 45 years old—How Finally Cured.

Euphemia, Ohio. - "Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has een my home for the last 18 years,

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a wowoman of my age and I can thank Lydia

E. Pinkham's Vegetable Compound for it. "Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. have now earned a comfortable little home just by sewing and nursing since I was 52 years old. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

Points Mothers

Individuality In Children's Clothes. The aim of every fastidious mother is to dress her child simply and in a becoming manner. Her clothes should be a part of her and not obtrude themselves. Some mothers think that if the child takes too much interest in her clothes she will become self conscious. On the other hand, the child who knows that she is appropriately dressed, as a rule, forgets entirely about herself and her frock, and it becomes as much a part of her as her bair.

The growing mind of the child is very sensitive to impressions, and if she learns early in life the cardinal principles of good dressmaking it will be as easy and as natural for her to apply them as she grows up as any of

Sensitiveness to Color.

Some children are very sensitive to color. They take a strong prejudice to certain colors. A red gown on a very high strung girl has been known to bring on a degree of excitement which frequently resulted in tantrums, while a frock of a more pleasing color would instantly soothe and quiet her. This is, of course, an extreme case, but there are more children than mothers realize who suffer cruelly from being compelled to wear clothes which in color and style are distasteful to them. Instead of trying to force the child to wear these clothes as a matter of training. the situation should be studied and the Child Must Be Considered.

It takes, as a rule, such a little time and so short an explanation to get the child's point of view that it is a pity many mothers go ahead and order their children's clothes without a thought of the individuality of the wearer, for children are so set in their ideas that they will not listen to reason and will not be guided by their mother's judgment, but it is necessary for them to feel that the mother is a competent guide. In these days, when the whole system of teaching in the schools is to bring out the individuality of the child, it is not surprising that the girl, even before she enters her teens, may feel competent to question just how much mother does know about the right clothes for her. It is necessary for the mother of today to study the clothes problem as it pre sents itself for her child. She will find that it is not the least of the problems which confront her, nor can it be solved offhand at a minute's notice. The day when one dress could be passed another is over. The manufacturer as much as any one has hastened its departure, for few of the present day fabrics will withstand more than a

season's wear and tear. If the mother is to guide her child in the selection of becoming and appropriate clothing she will teach her to study herself. The designers of children's clothing are quite ready to help the perplexed mother by offering ber gowns and coats and hats of many styles, almost as varied as those for older folk. The mother who selects successfully the costumes most appropriate for her daughter will cast aside her own preferences. She may delight in the fascinating Kate Greenaway gowns and coats, but unless her girl is of a picturesque type she will

be wise to pass them by. The Awkward Child.

The robust, tall, awkward child who promises to be a fine looking woman, but who in her early teens is the despair of many mothers, would look ridiculous in a Kate Greenaway frock, whereas she would forget her awkwardness in a well-cut Russian blouse, where the low waist line would detract from her height. Just as there are women who always look well in severe costumes, so there are children who have a certain style in the simplest of costumes and who become wholly commonplace in appearance the minute they are dressed up in frills and furbelows. It is far better to dress a girl of this type in a plain little frock of soft woolen or cashmere, if a wash umterated with face and embroidery, with ruffles and shirrings. On the other hand, there are children who are fairly irresistible in dainty muslin frocks beribboned and beruttled.

What a Yawn Telis.

When children bite their nails this often points to some digestive trouble, so do not scold your bairns for this nasty trick, but diet them very carefully and consult a doctor if they seem at all out of sorts. In older people the habit often goes with a hasty temper, which, in its turn, may be traced to a bad digestion.

Constant, uncontrollable yawning may sometimes point to a growth in the nose and throat. The person cannot breathe properly, so he is forced to yawn, not by weariness, but in order to draw more air hito his lungs.

Games For Children's Parties. Do not choose an elaborate game for

a children's party. You must not, for instance, have one which involves the use of a song or speech, as many of the children will not know the words and consequently will feel "out of it." A clever game of the "sit down and think" kind may be very good for grown people, but it merely bores the

particularly in the last hour when they advanced a cent, and assisted in boosting oats and provisions. The range of wheat was nearly two cents. At the opening wheat sold a trifle over yesterday but the advance tempted profit-taking and other selling under which May declined %c. An influence was the failure of continental markets to reflect an advance at Liverpool, the mainland being attentive to a decline of 1%c at Luenos Ayres. At this concession important buying developed, shorts covering on the way up until the reaction had run an extreme 1%c for May. Business was exceedingly active, and the close was only 4c under the top, and %@1c over yesterday. Canada reported an active export business and later Duluth wired that a large quantity of Durham

had been sold abroad. 'An English authority submitted figures purporting to show that importing nations have been running 2,000,000 bushels a week behind requirements for the last six weeks from which the conclusion was drawn the exportable surplus of all countries except those of Europe would be wanted before the end of the crop year. These items, and the strength of corn, were influential in

the advance. Although detailed information was not available in the corn pit, traders were convinced that a large export business is being transacted in the coarse cereal. This consideration is said to have been the impulse which moved recent important sellers to reinstate their lines. There was a report that the export transactions were due to a cut in prices to a basis of 31/2c over Chicago May prices to 15c Baltimore. The rise in futures drove

Morse lodge was chartered in Oc ber,1859, and so was able to celerate its 50th anniversary 5 years The lodge was named in honor D. Morse who was then Grand er of the Grand lodge of Illinois. aham Leonard father of J. M. conard was the first worshipful master and W. R. Ham was the first cretary. In fact these men had uch to do with securing the charter as before it was granted they were in the habit of walking to Jacksonille or Winchester to attend lodge. Through the trying days of the war of the rebellion, N. D. Morse lodgo continued uninterruptedly in its work although some of its memoers were killed in battle. To day the lodge is in excellent condition wth membership of forty-five. The preofficers include Lee Rexroat. M.; C. O. Bayliss, S. W.; J. A. odge, J. W.; Edgar Cooper, Sec.; J. Rayborn, treas.

Mr. Bancroft's Address. Mr. Horace H. Bancroft of this city, a past master of Jacksonville lodge No. 570 and a familiar figure at Masonic gatherings was introduced and made a very appropriate address emphasizing particularly the significance of the new lodge Mr. Bangroft said among other things:

'An occasion of this character is always an interesting one. In fact any celebration that marks the progress of the individual or an organized number of individuals is signifia, cant. This day will long live in the annals of freemasonry.

"In local tradition you and those who follow in your paths will ever refer to this ceremony with a feeling of just pride. Throughout the jurisdiction of Illinois the influence of this forward step will be felt and will be recognized. The strengthacksonville, Beardstown, Franklin, ening of any part strengthens the whole and as this splendid building so admirably arranged for Masonic purposes is appropriated from time to time for the uses for which it as intended, not only will a local impetus be felt because of the enterprise you have shown in the erection of this building, but the entire fraternity will pulsate with new life because you, a constitutent part of the fraternity have had the courage to plan and the ability to execute.

"I congratulate Morse lodge upon hat has been done in the past year. You stand just within the portals of another twelve months and my hope is that in the prosecution of the work of speculative masonry your progress will be as marked when the year shall close as has been your zeal for actual masonery as evidence by this structure in which we find, ourselves comfortably housed this

afternoon Dr. McCarty Believes in Lodges.

Dr. F. A. McCarty, who is frequently called upon to act as a toastmaster or to make an address, was the next on the program. Dr. Mc-Carty took as his theme "The Lodge and The Community" and interspersed some serious matters with various delightful stories. He dwelt upon the significance of the loge having its own building and said that such a building helped to preserve the unity of the order being the materal emodiement of the spirit of the lodge. OPPOSE SUGAR DUTY CHANGE. Washington, Jan. 15 .- The house ways and means committee hearings on tariff revision, which up to the numdrums character, were galvaniz ed into life today when the commit tee took up for consideration "schedde E." embracing sugar and manufactures. From the moment when the revision of the tariff became certainty it has been foreseen by all interested parties that the sugar schedule would present one of the most difficult problems on the entire list. To avoid arousing the ire of a large section of the south and west and at the same time act in consistence with the Democratic polcy of tariff reduction is the apparently impossible task that confronts those entrusted with the work of raming the new tariff bill. Representatives of the American Cane Growers association from Louisians and neighboring states were on hand in force today to present their ar guments for the retention of th present schedule on sugar. The bee growers of the western states are acting in hearty co-operation with the cane growers in the movemen to prevent any reduction in the sugar duty.

- CHANGE IN OCEAN ROUTES.

New York, Jan. 15 .- Another ste n the movement for greater safet at sea, which owes its origin to th investigation that followed the Ti tanic disaster, was taken today when an greement to change th route of travel between America and Europe was put into effect by all of the transatlantic steamship lines Begining with this date it has been agreed that all ships shall follow a line about sixty miles to the south of the crossings heretofore used at this time of year. It is expected that the vessels will thus escape the dangerous icehergs that are met with s frequently in thenorthern route during the spring months. By the change the passengers will also avoid much discomfort due to cold and heavy seas further north.

Every sufferer of Rheumatism needs S. S. S. because this great blood purifier is a certain cure for the painful disease. Rheumatism is caused by an excess of uric acid and other corrosive, irritating impurities in the blood, which are carried through the circulation to the different portions of the system. This acrid matter coats the nerves, muscles and joints with a fine, caustic deposit and the sharp cutting pains or dull, constant aches are produced. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes into the blood, neutralizes the acids, and dissolves the irritating particles and forces them out of the system through the natural excretory channels. Then all inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured but under the tonic effects of S. S. S. the entire health is benefitted and built up. S. S. S. reaches inherited cases as well as those which have

been acquired, and good results always follow its use. S. S. is an absolutely safe remedy because it contains no strong minerals to damage the system. It is made entirely of roots, herbs and barks. Book n Rheumatism and any medical advice free to all who write and request
